

Workshop is conducted in
English and Bahasa Indonesia

A short course on Professional Indemnity Insurance with special focus on Coverage and Claims (Engineers, Architects and Surveyors)

17 January 2018 @ Ayana MidPlaza Hotel, Jakarta

Facilitator : Ir. Pooba Mahalingam

Programme Highlights

Professional Indemnity (PI) cover is often taken up by Engineers, Architects and Surveyors to protect their professional responsibilities. This policy is a liability cover for the insured in the event of a negligent claim from a client. The Insured's professional work – be it design, drawings or calculations may have been wrongly submitted.

Some basic principles of this policy will be addressed during this one day course. The Course Leader will use Case studies to enhance the learning of this specialized product to participants.

Key Learning Outcomes

By the end of the programme, participants will be able to:

1. **Appreciate** how the PI policy is arranged and underwritten
2. **Know** the concerns of underwriter when considering this risk.
3. **Consider** some special clauses such as 'retrospective cover' that is provided in this cover
4. **Learn** a few case studies to learn how PI claims are handled.

Programme Outline

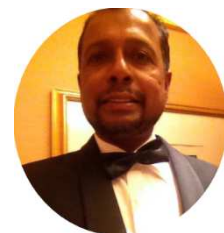

- explore the basic coverage provided under the PI policy
- discuss the typical professionals who can be covered.
- Look into the concerns of the underwriter when considering this risk
- Share a few case studies relating to PI losses.

Professional Indemnity Insurance

- Subject Matter of Coverage
- Scope of Cover
- Policy Schedule
- Limit of Indemnity
- Basis of Loss Settlement
- Common Extensions / Clauses
- Case Studies

Ir. Pooba Mahalingam

Trainer's Profile : Ir. Pooba Mahalingam

Our guest speaker is a professional engineer (registered with Board of Engineers, Malaysia) with over 25 years of experience in construction, insurance and loss adjusting. He is currently based in Singapore and has dealt with construction, engineering and property risks and claims for various insurance companies and reinsurers. He was previously attached to a global claims management company in Singapore and was assigned to Christchurch, New Zealand as a member of the CAT loss team handling the 2011 earthquake claims. He also managed reinsurance claims for a regional Insurance company in Singapore where he dealt with complex engineering issues.

Pooba has previous experience working with an international loss adjusting firm in Kuala Lumpur where he was responsible for mega projects risk management and claims handling. This included the following large construction risks -KLIA, KLCC, KL Tower, LRT I & II, Sprint Highway and Smart Tunnel. He also gained further regional engineering exposure when he handled assignments in Brunei, Indonesia, Myanmar, Vietnam and Hong Kong.

Our speaker has handled some high profile engineering/construction cases in the past and is a well-known presenter on project risks and claims handling procedures in the region. He is able to present both in English and Bahasa Malaysia. He also conducts training for M.I.I, S.C.I, A.I.C.L.A, IEM, BCA and other regional bodies. He is actively involved in industry activities both in Singapore and Kuala Lumpur.
