

Educational Pathways to become an ANZIIF Senior Associate CIP Member

*The ANZIIF Authorised Training Partner

ANZIIF Authorised Training Partners, or ATPs, are specialised training institutions that are authorised to provide ANZIIF training directly to students in a classroom setting. ANZIIF ATPs help meet the needs of students seeking a more traditional classroom-based training experience.

The goals of the ATP program is to offer students the highest quality training experience, and ANZIIF ATPs are carefully selected to meet ANZIIF's highest standards in all areas, including facilities, instructors, course delivery and infrastructure.

Each ATP Agreement requires the ATP to market, promote and provide ANZIIF training and certifications to all their students, using the training and assessment materials that are developed and maintained by ANZIIF. Assessments are conducted and marked on the ANZIIF online Assessment Centre by the ATP's own markers, meaning that all assessment results are collated and moderated to ensure transparency, consistency and highest assessment standards. Upon successful completion of a qualification, students will be awarded with ANZIIF's internationally recognised Diplomas or Certificates.

** The Diploma is accredited by Australian Training Qualification Framework (AQTF)

*** The Diploma is non-AQTF accredited as students study Vietnamese Law and Regulation and are assessed in Vietnamese not English.
